<p>EVALUACIJA SUSRETA, KOMENTARI, NAPOMENE,</p>	<p>Before coming to Romania we were very uncertain about our knowledge in English language and how would we adapt to this new environment in a country such as Romania.</p> <p>But after meeting everybody we knew everything would go smoothly and well because the other students were no better then us, either in talking English or knowledge.</p> <p>We finished our project with no problems at all and we all had a very good time.</p> <p>Just being there and experience something like this project in Romania was really a one in a life time experience and I really hope we could do this soon again and more often.</p> <p>I'm thankful for all that my teachers had to do to make this all happen and prepare us for going there and to everybody who was there working on this project.</p> <p>Thank you</p>
