St Pölten, Austria

School year 2012/2013

Tatjana Antić

The 5th meeting in St Poelten, Austria was - once again a big success. We have been there with 4 students and we took part in all activities and work lines.

In A Line (locomotive) we saw our locomotive run on stage, perfect, strong and smooth.

C Line EU Electronic map divided in 4 groups worked further on. As promised in Finland, we had made our solution of electronics (for gimmicks and European Electronic Map) but the other solution done by schools from Belgium and Netherlands was taken over as a better one.

Our students have been sad but we are still proud – they have made a version for electronics, it worked. Learning outcomes were just perfect and on the same level with learning outcomes of other students – only BE/NL final solution was cheaper and therefore the electronic group decide to have that for our train.

D Workline was also fruitful and we have another film clip, this time from Finland.

We have in mind all group work sessions with very fruitful and effective atmosphere and therefore profitable results for their further work. We have made another great step forward towards the final of our project. The work load for the coming months is huge, but we have no doubts, that the final meeting in Germany, Belgium and Luxembourg will show finally all results.

HEIDENHAIN company offered again their support as in all the other meetings and help for the further steps of realizing our project idea.

Our work line E offered the drafts for organization of our final meeting and we voted for final solutions in t-shirts (issue with the biggest contribution, funny but true) and the meeting was a great success in terms of technical progress.

Our tracks are in Germany, our puzzle in Austria, our locomotive in Denmark and we are just fine – the upper part is still not ready for finals, but we know finally what we are going to put on the upper part.

The final meeting will bring all the working lines to the last dot.

For the final presentation at EU Parliament in Brussels Croatia will write scenario. We are going to be there 10.04.2013. at 12.30. Our student Dominik Grdanjski will be announcer. Gordana Erić, Tomislav Kaćunko, Dominik Grdanjski and Tatjana Antić are flying on 5th oaf April to Frankfurt, going to Bad Kreuznach, then to Brussels and than to Luxembourg and coming back on 13th.

Mrs Christa Klaas invited us and we are grateful to her.

Support to Crotian team in EU Parliament Mrs. Kunović from AMEUP, Mr. Vladimir Drobnyak and Mr. Mario Nobilo (ambassadors), Mrs. Gordana Šimić (culture attaché) and some of the invited politicians from Croatian monitoring delegation to EU Parliament
