| <p>STUDENTS REPORT: ACTIVITIES BEFORE AND DURING THE MEETING.</p>  | <p>Celje, 11.05 - 16.05. 2012.</p>  | <p>NAME, CLASS:</p> <p>Abdul Rahman Ebaji, 2D</p> |
| <p>PREPARATION</p> <p>I have been working for this project since January. My Homework was to read all the minutes from all meetings. Teachers introduced us with the projects and answered on all our questions.</p> | | |
| | <p>DIRECT ACTIVITIES DURING THE SATZ IN LISABON IN WORKLINES, BUT ALSO IN OTHER ACTIVITIES.</p> | <p>COOPERATION WITH STUDENTS FROM OTHER SCHOOLS. WHAT, HOW AND WHEN.</p> |
| <p>11.05.2012.</p> | <p>We arrived in Celje. We stayed in Student's Home and listened the Good Morning Flashlights.</p> <p><u>Workline A "Locomotive"</u></p> <p>Croatia, Italy, Luxembourg, Denmark, Finland and Austria were in this group. We talked about the design of the Locomotive, and Denmark showed their idea of chassis and transmission.</p> <p>We had lunch in School.</p> <p><u>Workline B "Wagon components"</u></p> <p>Croatia is in the group with Italy, Hungary, Ireland and Slovakia. Here we had a long discussion about the wheel angle. After voting we decided to use 7° angle.</p> <p>After that, I presented it in front of all groups. We listen the other group's presentations. That was our Hard Working day.</p> | <p>When I came to school, I met some new friends.</p> <p>While presenting the decisions, I meet a girl who helped me with my English.</p> |
| <p>12.05.2012.</p> | <p>We had Good Morning flashlights.</p> <p><u>Workline C "European Electronic Map"</u></p> <p>Croatia is chosen to be supervisor in this group. I was in Control group. They discussed about electronic devices in the panel and communication between panel with computer and wagons.</p> <p>Lunch break in School.</p> | <p>I met two new friends in "Electronic gimmicks group". I talked about electronic with them, and we exchanged Facebook names.</p> <p>In Workline D I met teacher John O'Neill. I really liked him because he is funny and good at his work.</p> |

| | | |
|-------------|---|--|
| | <p><u>Workline B “Wagon components”</u></p> <p>I went to electronic gimmicks group with Grdanjski. There were only 2 Students in that group. We talked about connecting wagons, but that was impossible because we didn't know the conclusions of the other groups.</p> <p><u>Workline D “Supporting Tasks”</u></p> <p>I choose the “Online communication and video conference” group. We checked the minutes from Lisbon. Homework was to create a Skype account. Only 7 schools did the Homework. So we created a list of Schools who didn't do Homework and showed it on the flashlights. The deadline for Homework was 48h.</p> <p>At the end of the day we listened to other group's reports.</p> | |
| 13.05.2012. | <p>Cultural and sightseeing day.</p> <p>The Bus picked us up in 8:00. We visited the Lipica stud farm. They showed us how the pros train horses. We had lunch in a restaurant. After lunch, we went to see Postojna Cave. The Cave is the one of the biggest Caves in the world. It was beautiful. It was very cold in Cave. On our way back we stopped in Ljubljana. It's the capital city of Slovenia. In the evening we finally arrived in Celje.</p> | We had a nice time with students from other countries. We talked about differences in our countries. |
| 14.05.2012. | <p>I went to school to listen Good morning flashlight.</p> <p>We met with the Principle from our school and one professor which is an electronic specialist. He gave us an idea how to connect the Panel with wagons and laptop.</p> <p><u>Workline B “Wagon Components”</u></p> <p>I went to electronic gimmicks group instead. I heard the ideas of other students. We finished quickly so we had some free time.</p> <p>I had my lunch in a restaurant during the lunch break.</p> <p><u>Workline A “Locomotive”</u></p> <p>We didn't have enough time to make decisions so we exchanged our Facebook accounts and E-mail addresses for further talks.</p> <p><u>Workline B “Wagon Components”</u></p> <p>I went with Grdanjski on electronic gimmicks meeting. Electrician specialist from my school was talking with teacher from Italy about our idea. After meeting, we went to Wheel Design group. They decided to use Aluminium wheels. We had</p> | I meet some Slovenians in our Students Home. They say that School in Slovenia are difficult. |

| | | |
|--|--|--|
| | <p>to vote for the design of the Wheels.</p> <p><u>Workline C “European electronic map”</u></p> <p>Grdanjski presented our idea about solution for European electronic map. Everyone could ask anything they wanted to know. We were able to answer on all questions so we got a Homework to build a prototype before next meeting in Finland.</p> <p><u>Workline D “Supporting tasks”</u></p> <p>We checked the progress. Only few schools didn't create the account so we made a new deadline. This group was successful.</p> | |
| 15.05.2012. | <p>Company visit and sightseeing day.</p> <p>In the morning the Bus picked us up and we went to see the Old Castle of Celje. You can see the whole city from up there. After Castle we were on our way to Emo Orodjarna Company. We took a tour through the factory. Then we had an hour and a half free time. We went to City centre Celje. We went shopping. At 12:30 we were on our way to Unior Žreče Company. Unior is a factory which makes machines for creating parts for VW, BMW, Audi and other companies. At the end of our tour we went to Žiče. There is an old Carthusian Monastery and the oldest running restaurant in Europe. We didn't get any spoons, knives or forks. We ate with our hands instead.</p> <p>We said goodbye to all participants of Train Family.</p> | I meet students from Nederland, Finland, Ireland, Germany and Italy and we went to bar together. |
| 16.05.2012. | We woke up, had breakfast, and immediately caught a train to Zagreb | |
| EVALUATION OF THE MEETING, COMMENTS, NOTES | The meeting in Celje was great. I met a lot of new friends from the whole Europe. I improved my English and learned a lot of new things. I was honored to participate in this project . | |
